## PPDP 2016 – September 5-7, 2016

The 18<sup>th</sup> International Symposium on Principles and Practice of Declarative Programming

---

PPDP is a forum that brings together researchers from the declarative programming communities, including those working in the logic, constraint and functional programming paradigms, but also embracing languages, database languages, and knowledge representation languages.

**PC Chair:** German Vidal  
Universitat Politècnica de València

## LOPSTR 2016 – September 6-8, 2016

The 26<sup>th</sup> International Symposium on Logic-based Program Synthesis and Transformation

---

The aim of the LOPSTR series is to stimulate and promote international research and collaboration on logic-based program development. LOPSTR is open to contributions in logic-based program development in any language paradigm. LOPSTR has a reputation for being a lively, friendly forum for presenting and discussing work in progress.

**PC Chair:** Manuel Hermenegildo  
IMDEA Software Institute and Technical  
University of Madrid (UPM)

## SAS 2016 – September 8-11, 2016

The 23<sup>rd</sup> International Static Analysis Symposium

---

Static Analysis is increasingly recognized as a fundamental tool for program verification, bug detection, compiler optimization, program understanding, and software maintenance. The series of Static Analysis Symposia has served as the primary venue for the presentation of theoretical, practical, and application advances in the area.

**PC Chair:** Xavier Rival  
CNRS & ENS Paris & INRIA Paris, France

### Organising Committee

James Cheney, University of Edinburgh  
Moreno Falaschi, University of Siena

### Sponsors

University of Edinburgh School of Informatics  
Scottish Informatics and Computer Science  
Alliance  
PPDP in cooperation with ACM SIGPLAN
